EXIST. CABINETS AND WOOD DOORS TO BE STAINED

ALL TROPHIES & PLAQUES TO BE GROUPED & STAGED WITH GRAPHICS/DESCRIPTIONS

[illegible]An architectural rendering of a museum exhibit space. The room features wood-paneled walls and floors. On the left wall, eight framed newspaper clippings are arranged in two rows of four. Below them is a large wooden cabinet door. To the right, there are glass display cases containing trophies and plaques, some with silhouettes of players. A large graphic panel is mounted on the wall. The ceiling has track lighting. Various callouts provide design specifications.
